TESTSHIB TWO

Home Install Register Configure Test Next Steps Policy	<p>Welcome to TestShib Two, a testing service intended for new installations of Shibboleth. All SAML 2.0 implementations are welcome and may be tested against Shibboleth here.</p> <p>We're here to help you test your installation and experiment with the use of Shibboleth. After reviewing the TestShib policy and agreeing to abide by it, follow these steps to a successful test:</p> <ul style="list-style-type: none">• Install the Shibboleth 2.x SP and/or IdP software.• Use the metadata upload form to register with TestShib as an identity provider, service provider, or both.• Configure your site with information provided to you in the registration process.• Test your installation.• Explore some suggested next steps. <p>Note: The TestShib service is only for testing. If you use anything associated with it for protection of resources that need real security, you are making a big mistake and you are on your own.</p>
